NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 30 JUNE 2019

1. Basis of preparation

The unaudited condensed interim financial statements for the first quarter and three months ended 30 June 2019 have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134, *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB").

The unaudited condensed interim financial statements have been prepared under the historical cost convention except for the following assets and liabilities which are stated at fair values: financial assets and liabilities at fair value through profit or loss ("FVTPL"), financial assets at fair value through other comprehensive income ("FVOCI") and derivative financial instruments.

The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Bank as at and for the financial year ended 31 March 2019. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Bank since the financial year ended 31 March 2019.

The unaudited condensed interim financial statements incorporated those activities relating to Islamic banking business which have been undertaken by the Bank. Islamic banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

The significant accounting policies and methods of computation in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited financial statements for the financial year ended 31 March 2019, except for the adoption of the following new MFRSs, amendments to MFRSs and Issues Committee ("IC") interpretations which are effective for annual periods beginning on or after 1 January 2019:

- MFRS 16, Leases
- IC Interpretation 23, Uncertainty over Income Tax Treatments
- Amendments to MFRS 3, Business Combinations (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 9, Prepayment Features with Negative Compensation
- Amendments to MFRS 11, Joint Arrangements (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 112, Income Taxes (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 119, Employee Benefits Plan Amendment, Curtailment or Settlement

(Company No. 926374-U) (Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 30 JUNE 2019

1. Basis of preparation (continued)

- Amendments to MFRS 123, Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 128, Investment in Associates and Joint Ventures Long-term Interests in Associates and Joint Ventures

The initial application of the abovementioned accounting standards, amendments and interpretations do not have any material financial impact to the financial statements of the Bank except as mentioned below:

MFRS 16, Leases

MFRS 16 replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases - Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset during the lease term and a lease liability representing its obligations to make lease payments. The right-of-use asset is depreciated in accordance with the principle in MFRS 116, *Property, Plant and Equipment* and the lease liability is accreted over time with interest expense recognised in the profit or loss. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to classify a lease as finance or operating lease.

The Bank applied MFRS 16 using the modified retrospective approach, where the cumulative transition effect of adoption, if any, is recognised in the opening of retained earnings as at 1 April 2019, with no restatement of comparative figures. On transition to MFRS 16, the Bank recognised lease liabilities amounting to RM3.64 million with a corresponding right-of-use assets amounting to RM3.64 million, whereby the difference between the lease liabilities and right-of-use assets is recognised in the retained earnings.

(Company No. 926374-U) (Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 30 JUNE 2019

11. Review of Performance

For the first quarter ended 30 June 2019, the Bank registered profit before taxation of RM78.4 million, an increase of 24% as compared to RM63.4 million recorded in the corresponding quarter last year. Consequentially, profit after taxation increased by 24% to RM59.2 million in the quarter under review as compared to RM47.8 million in the corresponding quarter last year.

The improved performance was mainly attributed to the increase in other operating income of RM44.5 million as compared to RM26.8 million recorded in the corresponding quarter last year attributed largely by the higher unrealised net gain on revaluation of derivatives. In addition, the higher net interest income of RM63.5 million recorded in the current quarter as compared to RM58.6 million in the corresponding quarter last year had also contributed to the overall improved financial performance of the Bank.

However, the higher earnings were partially offset by an increase in other operating expenses amounting to RM32.7 million in the quarter under review as compared to RM29.1 million recorded in the corresponding quarter last year.

Total assets registered a 9% increase amounting to RM21,169 million as at 30 June 2019 as compared to RM19,426 million as at the financial year ended 31 March 2019. This was mainly attributed to the 33.2% increase in cash and short-term funds amounting to RM5,830 million and the net growth in loans, advances and financing of 3.9% to RM13,532 million as at 30 June 2019.

The total liabilities recorded an increase of 10.3% to RM18,022 million as at 30 June 2019 as compared to RM16,344 million as at year-ended 31 March 2019. This was largely contributed by the higher customer deposits of 12.8% amounting to RM15,516 million as at 30 June 2019 compared to RM13,753 million as at financial year-ended 31 March 2019.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FIRST QUARTER ENDED 30 JUNE 2019

12. Current Year Prospects

The Malaysian economy recorded a gross domestic product ("GDP") growth of 4.5% in the first quarter of 2019. Bank Negara Malaysia ("BNM") maintained its forecast for 2019 economic growth rate at between 4.3% to 4.8%. On the monetary policy front, BNM had reduced its Overnight Policy Rate ("OPR") by 25 basis points to 3.0% on 7 May 2019, marking the first revision in over a year. The optimistic outlook leading to the rate cut decision was due to the continued expansion in domestic demand in key economic sectors as well as the strengthening of export demands.

Private sector activities continued to be the primary driver of economic growth. Private consumption expanded consistently with strong employment rate and wage growths although consumer sentiments had moderated from its recent peak. In addition, growth was also supported by higher private investment indicative of both the Foreign Direct Investment ("FDI") and domestic direct investment in diverse sectors of the economy.

Despite the resilient economic performance, Malaysia remains subject to heightening uncertainties from external factors including rising protectionism, trade tensions in the major economies and geopolitical instability. These factors have exacerbated the financial and commodity price volatility on the back of rising debts levels in the global market. Malaysia's diversified structure and inherent dynamism will help to weather the risks and vulnerabilities while preserving macroeconomic and financial stability.

Notwithstanding, the Bank remains cautiously optimistic in achieving its key business and financial targets as set out for the year despite the business challenges as stated above.
