

Notice Regarding Issuance of New Shares,
Secondary Offering of Shares, and Withdrawal of Shelf Registration for Future Equity Issuances

TOKYO, May 28, 2009 --- Sumitomo Mitsui Financial Group, Inc. (“SMFG”, President: Teisuke Kitayama) hereby announces that its board of directors has resolved matters relating to the issuance of its new shares, the secondary offering of the shares, and the withdrawal of the shelf registration for future equity issuances, as set forth below.

The business and financial environment is expected to remain in a state of heightened uncertainty as the currently challenging global economic situation continues, and various initiatives and efforts to structure a new regulatory framework are being implemented globally to stabilize the financial system. Amid such circumstances, SMFG considers it necessary to enhance its capital base both in terms of quantity and quality in order to maintain its competitiveness notwithstanding any future changes that might occur in the global financial sector and to realize sustainable growth. SMFG, therefore, has decided to issue common stock. SMFG believes that issuing new shares will enable SMFG to more quickly achieve one of the goals of its medium-term management plan of “realizing a solid financial base as a global player”; secure a more solid capital base to better withstand further financial and economic stresses; more sufficiently supply funds to clients, which is one of SMFG’s core missions as a financial institution; and capture various business opportunities.

Reference

1. Number of Shares to be sold in the Offering by way of Over-Allotment and Number of New Shares to be Issued by way of Third-Party Allotment.

The Offering by way of Over-Allotment in “2. Secondary Offering of Shares (Offering by way of Over-Allotment)” above is a secondary offering in Japan to be made in conjunction with the Japanese Public Offering in “1. Issuance of New Shares by way of Offering” in an amount not to exceed 15,300,000 shares, that will be borrowed by one of the Joint Lead Managers for the Japanese Public Offering from certain shareholder(s) of SMFG (the “Borrowed Shares”), taking into account market demand for the offerings and other conditions. The number of shares in the Offering by way of Over-Allotment indicates the maximum number of shares to be sold, and depending on market demand and other conditions such number may decrease, or the Japanese Over-Allotment may be cancelled.

In connection with the Japanese Over-Allotment, the Board of Directors of SMFG has resolved, at the meeting held on May 28, 2009 (Thurs.), that SMFG will issue 15,300,000 shares of its common stock by way of third-party allotment to that Joint Lead Manager referred to in the previous paragraph with the payment date for the set to be July 27, 2009 (Mon.), as mentioned in “3. Issuance of New Shares by way of Third-Party Allotment” above.

That Joint Lead Manager may conduct stabilizing transactions during the Subscription Period for the Japanese Public Offering and the offering by way of Over-Allotment (the “Subscription Period”). The shares of common stock of SMFG purchased through such stabilizing transactions may be used, in whole or in part, to return the Borrowed Shares.

In addition, shares of common stock purchased through stabilization transactions, may, in whole or in part, be transferred to the International Managers for the purpose of partially settling the International Offering.

Furthermore, that Joint Lead Manager may also purchase shares of common stock of SMFG on the Tokyo Stock Exchange, Inc., up to the number of shares to be offered in the offering by way of Over-Allotment (the “Syndicate Cover Transactions”). Shares of SMFG common stock purchased through Syndicate Cover Transactions shall be used to return the Borrowed Shares. Such Syndicate Cover Transactions would be made during the period beginning on the date immediately following the last day of the Subscription Period and ending on July 17, 2009 (Fri.) (the “Syndicate Cover Transaction Period”). During the Syndicate Cover Transaction Period, that Joint Lead Manager at its discretion may not conduct any Syndicate Cover Transactions or may terminate any Syndicate Cover Transactions before the number of shares purchased reaches the number of shares offered in the Offering by way of Over-Allotment.

That Joint Lead Manager plans to accept the allotment under the Issuance of New Shares by way of Third-Party Allotment of an equivalent number of shares of common stock of SMFG obtained by deducting (a) the number of shares purchased through stabilization transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Shares, from (b) the number of shares to be offered in the Japanese Over-Allotment.

Accordingly, all or a part of the shares to be issued under the Issuance of New Shares by way of Third-Party Allotment may not be subscribed for, which may result in a decrease in the maximum number of shares planned to be issued under the Issuance of New Shares by way of Third-Party Allotment, or in the cancellation of the entire issuance due to forfeiture.

The above transaction shall be made by that Joint Lead Manager in consultation with the other Joint Lead Manager for the Japanese Offering.

In order to preserve the interests of the holders of these stock options, SMFG resolved at a Board of Directors meeting held on August 29, 2002 that SMFG would succeed to such 1,620 stock options in connection with the share transfer executed by SMFG. SMFG's succession to the 1,620 stock options was approved at the first meeting of SMBC's Type 1 Preferred Stockholders, the second meeting of SMBC's Type 1 Preferred Stockholders, and a meeting of SMBC's Type 5 Preferred Stockholders held on September 26, 2002, as well as the an extraordinary general shareholders meeting (which meeting is also a class shareholders' meeting with respect to common stock) held on September 27, 2002. The ratio of (a) the remaining number of shares to be issued upon exercise of stock options as set forth below to (b) the total number of issued shares after the Offering of new shares and the Issuance of New Shares by way of Third-Party Allotment (See Note 1. and 2. of "Reference" item 2. above) excluding treasury shares, etc. is expected to be a maximum of 0.01%.

- Notes:
1. Share prices for the fiscal year ending March 2010 are shown as of May 27, 2009.
 2. Prices indicated above are the trading prices on the First Section of the Tokyo Stock Exchange, Inc.
 3. SMFG conducted a 100-for-1 stock split effective January 4, 2009, and the mark "□" represents ex-rights share prices after taking account the stock split.
 4. Price/earnings ratio is a fraction, the numerator of which is the share price (closing price) as at the end of each fiscal year; and the denominator of which is the current net income per share for the relevant fiscal year. As we recorded a net loss for the fiscal year ended March 31, 2009, the price to earnings ratio is not provided for that period. In addition, the price/earning ratio for the fiscal year ending March 2010 has yet to be confirmed and thus is not indicated in the above table.
