Sumitomo Mitsui Financial Group, Inc.

Notice Regarding the Filing of an Annual Report on Form 20-F with the U.S. Securities and Exchange Commission

TOKYO, June 30, 2016 --- Sumitomo Mitsui Financial Group, Inc. ("SMFG", President: Koichi Miyata) hereby announces that, on June 29, 2016 (Eastern Daylight Time), SMFG filed an annual report on Form 20-F with the U.S. Securities and Exchange Commission ("SEC").

A copy of the annual report on Form 20-F can be viewed and obtained at SMFG's website at http://www.smfg.co.jp/english/investor/financial/annual.html or on EDGAR, the SEC's Electronic Data Gathering, Analysis, and Retrieval system. Holders of SMFG's American Depositary Receipts may request a hard copy of SMFG's complete audited financial statements free of charge through SMFG's website.

Attachment:

(Reference 1) Consolidated Financial Statements (IFRS) (Reference 2) Reconciliation with Japanese GAAP

This document contains a summary of SMFG's consolidated financial information under International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board that was disclosed in its annual report on Form 20-F filed with the U.S. Securities and Exchange Commission on June 29, 2016. This document does not contain all of the information in the Form 20-F that may be important to you. You should read the entire Form 20-F carefully to obtain a comprehensive understanding of SMFG's business and financial data under IFRS and related issues.

This document contains "forward-looking statements" (as defined in the U.S. Private Securities Litigation Reform Act of 1995), regarding the intent, belief or current expectations of SMFG and its management with respect to SMFG's future financial condition and results of operations. In many cases but not all, these statements contain words such as "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "probability," "risk," "project," "should," "seek," "target," "will" and similar expressions. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ from those expressed in or implied by such forward-looking statements contained or deemed to be contained herein. The risks and uncertainties which may affect future performance include: deterioration of Japanese and global economic conditions and financial markets; declines in the value of SMFG's securities portfolio; SMFG's ability to successfully implement its business strategy through its subsidiaries, affiliates and alliance partners; exposure to new risks as SMFG expands the scope of its business; and incurrence of significant credit-related costs. Given these and other risks and uncertainties, you should not place undue reliance on forward-looking statements, which speak only as of the date of this document. SMFG undertakes no obligation to update or revise any forward-looking statements. Please refer to SMFG's most recent disclosure documents such as its annual report on Form 20-F and other documents submitted to the U.S. Securities and Exchange Commission, as well as its earnings press releases, for a more detailed description of the risks and uncertainties that may affect its financial conditions, its operating results, and investors' decisions.

A brief explanation of adjustments with significant impacts arising from differences in equity and/or net profit between Japanese GAAP and IFRS is provided below. For a more detailed explanation, please refer to "Item 5. Operating and Financial Review and Prospects - Reconciliation with Japanese GAAP" in the annual report on Form 20-F filed on June 29, 2016 (Eastern Daylight Time).

Scope of Consolidation (Item 1)

- Under IFRS, the SMFG Group consolidates an entity when it "controls" the entity. In general, the SMFG Group considers that it controls an entity when it has the existing rights that give it the current ability to direct the operating and financing policies by owning more than half of the voting power, or by legal or contractual arrangements.
- All types of entities, irrespective of their purpose or legal form, are consolidated under IFRS when the substance
 of the relationship between the entities and the SMFG Group indicates that the entities are controlled by the
 SMFG Group. Therefore certain entities such as securitization vehicles which are not consolidated under Japanese
 GAAP are consolidated under IFRS.

Derivative financial instruments (Item 2)

(Hedge accounting)

• The SMFG Group applies hedge accounting under Japanese GAAP. However, the conditions for hedge accounting under IFRS are not fully the same as those under Japanese GAAP. The SMFG Group does not apply hedge accounting under IFRS and reversed the effects of hedge accounting under Japanese GAAP.

(Fair value measurement of derivative financial instruments)

Japanese GAAP and IFRS require Over-the-Counter ("OTC") derivatives (non-exchange traded derivatives) to be
measured at fair value. In principle, there is no significant difference in the definitions of fair value, but in practice
there is diversity in the application of valuation techniques used for fair value under Japanese GAAP and IFRS.
Therefore, to meet the requirements of fair value under IFRS, adjustments have been made to the fair values under
Japanese GAAP to reflect credit risk adjustments for OTC derivatives.

Investment securities (Item 3)

(Fair value measurement of investment securities)

- Under IFRS, available-for-sale financial assets (and financial assets at fair value through profit or loss) should be measured at fair value. The fair value of financial instruments where there is no quoted price in an active market is determined by using valuation techniques.
- In addition, the fair values of certain financial instruments under Japanese GAAP have been adjusted in order to meet the requirements of fair value under IFRS. For example, the SMFG Group uses the last 1-month average of the closing transaction prices for the fair value measurement of available-for-sale financial assets (listed stocks) under Japanese GAAP, whereas closing spot prices are used under IFRS.

(Impairment of available-for-sale financial assets)

Under IFRS, the SMFG Group assesses whether there is objective evidence that available-for-sale financial assets
are impaired. For available-for-sale equity instruments, objective evidence of impairment includes a significant or
prolonged decline in the fair value below cost. Additionally, under Japanese GAAP, the SMFG Group reverses
impairment losses recognized in a previous interim period, whereas the reversal of the impairment losses on equity
instruments is not allowed under IFRS.

Loans and advances (Item 4)

(Impairment of loans and advances)

- Under Japanese GAAP, the reserve for possible loan losses for specifically identified significant loans is calculated by using the discounted cash flow ("DCF") method, which is based on the present value of reasonably estimated cash flows discounted at the original contractual interest rate of the loan. Under IFRS, the allowance for loan losses for individually significant impaired loans is calculated by using the DCF method based on the best estimate of cash flows discounted at the original effective interest rate. In addition, the scope of the loans that are subject to the DCF method under IFRS is wider than that under Japanese GAAP.
- Under IFRS, the allowance for loan losses for the remaining loans is collectively calculated by homogeneous group using statistical methods based on the historical loss experience and incorporating the effect of the time value of money. A qualitative analysis based on related economic factors is then performed to reflect the current conditions at the end of the reporting period. Under IFRS, the allowance for the non-impaired loan losses is calculated as incurred but not yet identified losses for the period between the impairment occurring and the loss being identified, although the allowance under Japanese GAAP is calculated based on the expected losses.

(Loan origination fees and costs)

• Under IFRS, loan origination fees and costs that are incremental and directly attributable to the origination of a loan are deferred and thus, included in the calculation of the effective interest rate.

Deferred tax assets (Item 9)

• Under IFRS, deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. For example, deferred tax assets for deductible temporary differences relating to impairment of financial instruments of which the timing of the reversal is difficult to estimate cannot be recognized under Japanese GAAP, whereas they can be recognized under IFRS to the extent that it is probable that future taxable profit will be available.

Classification of equity and liability (Item 11)

• Under IFRS, a financial instrument or its component parts are classified as equity instruments or financial liabilities in accordance with the substance of the contractual arrangement and the definitions of financial liabilities and equity instruments. A financial instrument is classified as a financial liability if there is a contractual obligation to deliver cash or another financial asset other than a fixed number of equity shares in exchange for a fixed amount of cash or another financial asset. In the absence of such a contractual obligation, the financial instrument is classified as an equity instrument.
