Resona Holdings, Inc. (Resona Holdings, President: Kazuhiro Higashi), Sumitomo Mitsui Financial Group, Inc. (SMFG, President: Koichi Miyata), The Minato Bank, Ltd. (Minato, President: Hiroaki Hattori), Kansai Urban Banking Corporation (Kansai Urban, President: Kazumasa Hashimoto) and The Kinki Osaka Bank, Ltd. (Kinki Osaka, President: Koji Nakamae) hereby announce that these companies have agreed (the “Basic Agreement”) to proceed with discussion and consideration for the purpose of a business integration (the “Business Integration”) of the three banks, Minato, Kansai Urban and Kinki Osaka (collectively, the “Integrated Group” and individually, the “Integrating Party”), at their respective board of directors meetings held today. The Business Integration is subject to the approval and permission of the relevant authorities.

1. Background and Objectives of the Business Integration

The banking industry is facing various accelerating structural changes, such as changes in the demographic structure of Japan and heightened awareness of an aging society, changes in the financial sector caused by technological advancements as well as the dawn of a new competitive era shattering walls between industries. By promptly establishing a new business model that meets such changes in the business environment, each Integrating Party, as a regional financial institution, desires to further contribute to the development of the regional economy and make a new start for its regrowth.

As the gross regional product (approximately ¥80 trillion) of the Kansai region, on which the businesses of the Integrated Group are based, constitutes 16% of the gross domestic product of Japan, The Integrating Parties, Resona Holdings and SMFG believe that contributing to the further stimulation and vigorous growth of the Kansai economy, while making the best use of the strengths and characteristics of each Integrating Party, is the most important mission for financial institutions

whose primary market is the Kansai region and will eventually contribute to the sustainable growth of the Japanese economy.

Based on such basic understanding, the Integrated Group will aim to deepen the long-term relationships with its customers and local communities that each Integrating Party has established over the years and will also aim to establish one of the leading regional financial groups in Japan and the largest regional financial group in the Kansai region where its employees will work with great motivation and pride.

- The Holding Company and each Integrating Party will establish a governance structure adequate for a listed group of companies in order to maximize the effect of the Business Integration under Resona Holdings’ governance of the group.
- With respect to Kansai Urban and Kinki Osaka, we will examine ways to optimize their business structure and maximize the effect of the Business Integration, including a potential merger of the two banks, before a definitive agreement concerning the Business Integration (the “Definitive Agreement”) is executed.

## 2. Structure of the Business Integration

We are planning to integrate Minato, Kansai Urban and Kinki Osaka through a holding company structure whereby these banks will become wholly-owned subsidiaries of the intermediate holding company to be incorporated under the umbrella of Resona Holdings.
